

## LCHHB

### General Purpose Outdoor Housing

The LCHHB is Moog Videolarm's cost efficient standard camera outdoor housing. The LCHHB accommodates camera/lens up to 8" (203.2mm) long. The body is an attractive beige finish and features a front hinged top with latch closing. An aluminum wall mount is included. A heater/blower (H&B) model is also available.

#### Key Features

- Front hinge with latch closing
- Optional 24Vac H&B model
- Accepts camera/lens combinations to 8" (203.2mm)

The LCHHB housing shall be comprised of an aluminum body with plastic end caps. A clear viewing window shall be glued to the inside of the front end cap. The top of the housing shall be hinged from the front and shall be held closed by a latch located on the back of the housing. An aluminum wall mount shall be included. The housing shall accommodate camera/lens combinations up to 8", and cameras shall be mounted to an adjustable sled inside the housing. A model shall be available which includes a 24Vac heater. Wire entry shall be via one strain relief plug located on the bottom rear of the housing.
